## AK 2 Workplace Divider Lamp Hanging

Installation guide

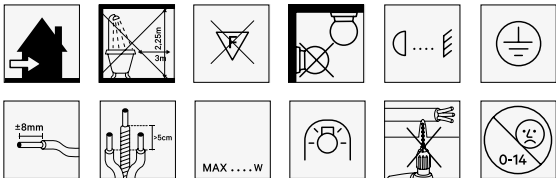

# Introduction

- Follow the instructions for a safe installation.
- Make sure that the power supply has been turned off before installing or cleaning the product.
- Pay attention to the correct colors when connecting the wires: blue (N), brown or black (L) and protection class I yellow-green (earth wire).
- Maintain interior lighting with a dry cloth or brush. Do not use alcohol or any other solvents to clean the product. Keep all electrical components dry. Make sure the power is switched off before cleaning this product.
- If the fixture is mounted on a metal surface, it must be earthed or connected to earthing from the electrical installation.

The lighting fixture has been designed, produced and tested according to European safety regulations (EN-60598 / CE). All used components are UL-registered. Changes in design and technical specifications reserved.

## Design

De Vorm

## About

A Workplace Divider Lamp for reading tables, shared work spaces and open offices. The large shape has its own characteristic aesthetic as well as sound dampening properties to increase the sensation of privacy.

## Care & Maintenance

Make sure that the power has been turned off before cleaning this product. It is advised to clean by dabbing the PET Felt with a damp cloth. Do not rub, it can cause damage and may cause bald spots. If this is not sufficient, stubborn stains can be removed with qualitative cleaning products like the James cleaning set.

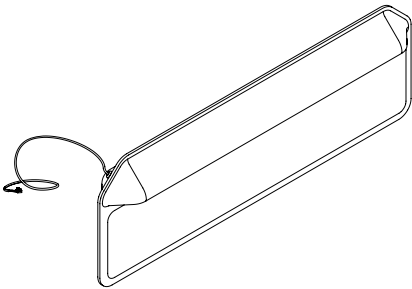

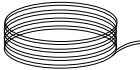

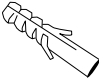

## Technical data

|              |                                  |
|--------------|----------------------------------|
| Voltage      | 220-240V                         |
| Frequency    | 50 - 60 Hz                       |
| IP rating    | IP20                             |
| Socket       | 2 x G13 Philips CorePro LED tube |
| Power        | 14.5W                            |
| Light output | 1600 Lm                          |
| Temperature  | 4000K                            |
| CRI          | 80                               |

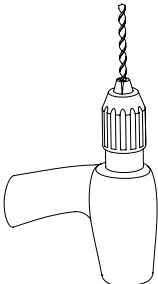

## Note

Connect the LEDtube side, marked with logo, to the power source of the AK 2 (feed side).

|  |  |

# Installation

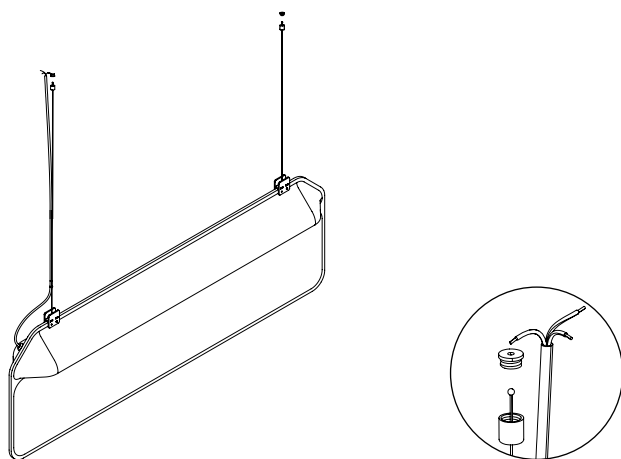

- |   |  |
|---|--|
| <b>1</b> Make sure the power is switched off.   |  |
| <b>2</b> Drill holes with 1110 mm between them. Make sure you use the correct type of drill for the material you are drilling into. | <b>3</b> Insert wall plugs and screw the ceiling mount disk into the ceiling plug. |

- |   |   |
|---|---|
| <b>4</b> Insert the steel cable into the ceiling cap. Then mount the ceiling cap on the ceiling mount disk. | <b>5</b> Push the two steel cables into the cable adjusters on the lampshade and adjust them to the correct height. Make sure to thread the steel cable through the two rubber rings on the cord. |
|---|---|

- |   |
|---|
| <b>6</b> Connect to power supply — and you're done! |
