

DeVorm

AK 3 + 4 Desk Clamp

Installation guide

Parts required

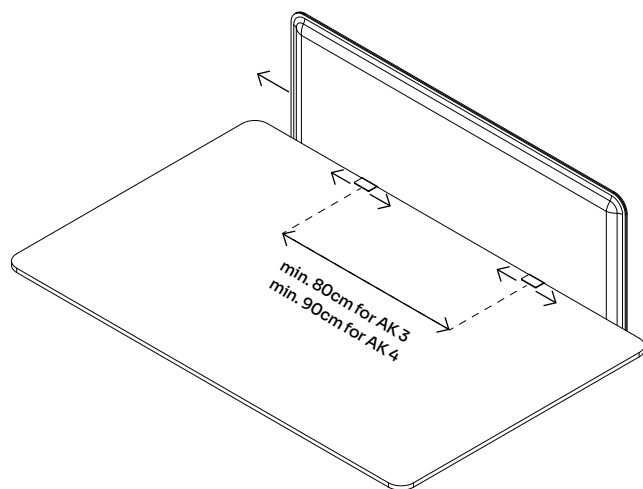

AK 3 / AK 4 Panel	Clamp (including adjustable foot) 2x	Screw 5x20 4x	Screw 3,5x12 4x
			

Tools required

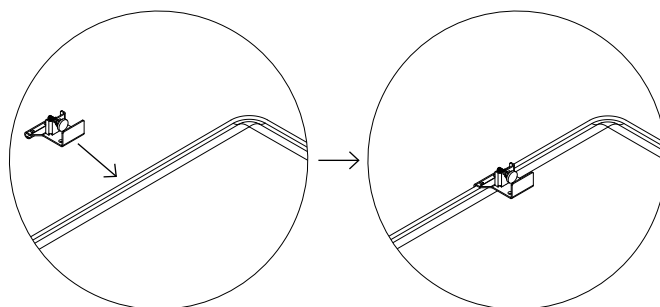

Crosshead screwdriver	Hex key (5 mm)	Wrench (17mm)
		

Installation

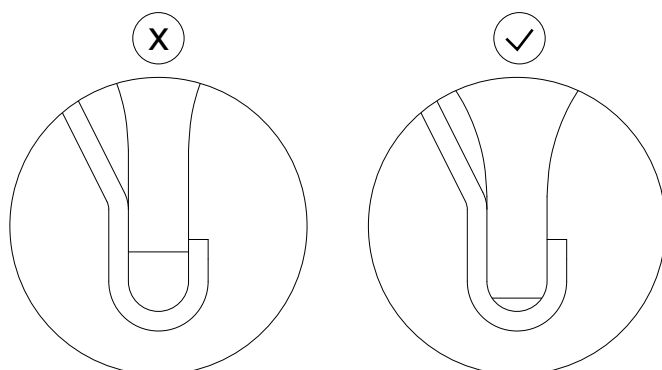

- 1 Determine where the panel and clamps should be installed, taking into account the minimum required distance between the clamps.

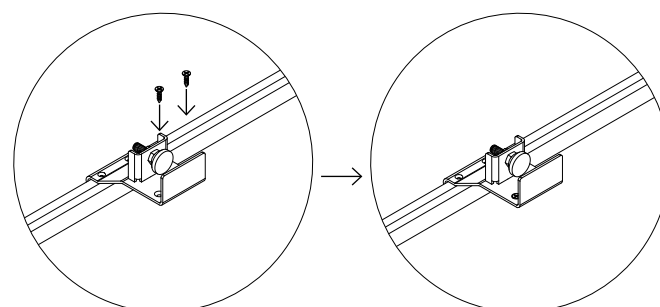

- 2 Put the hook of the clamp around the underside of the panel.

- 3 Make sure that the panel has been sunk sufficiently into the hook of the clamp.

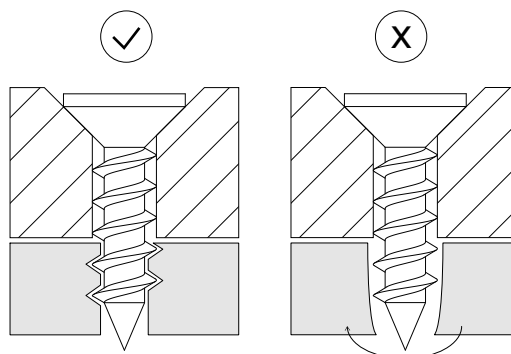

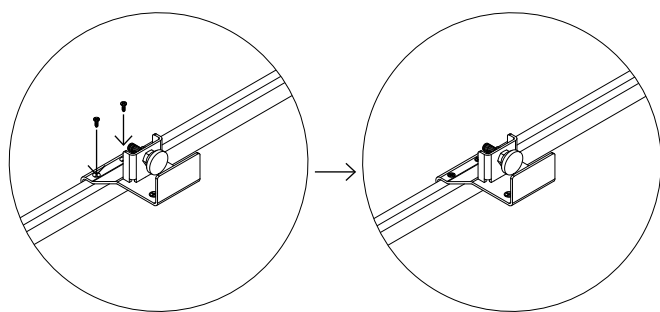

- 4 Insert the screws (5x20) into the upper holes of the clamp and screw them into the panel.

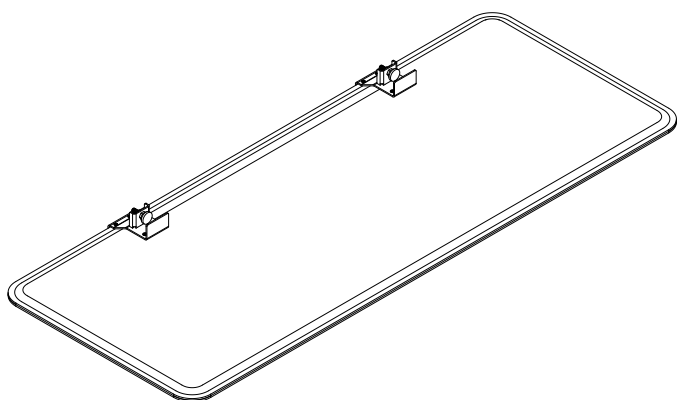

- 5 Insert the screws (3,5x13) into the lower holes of the clamp and screw them into the panel.

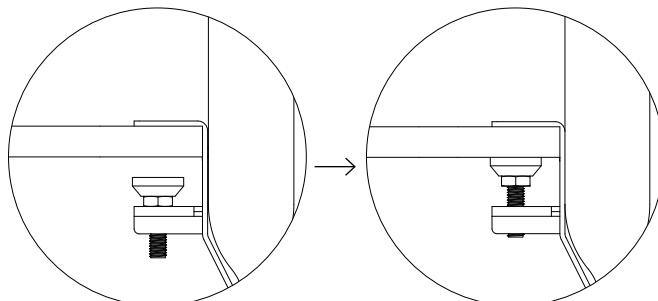

IMPORTANT! Stop turning the screw once the head of the screw has reached the metal.

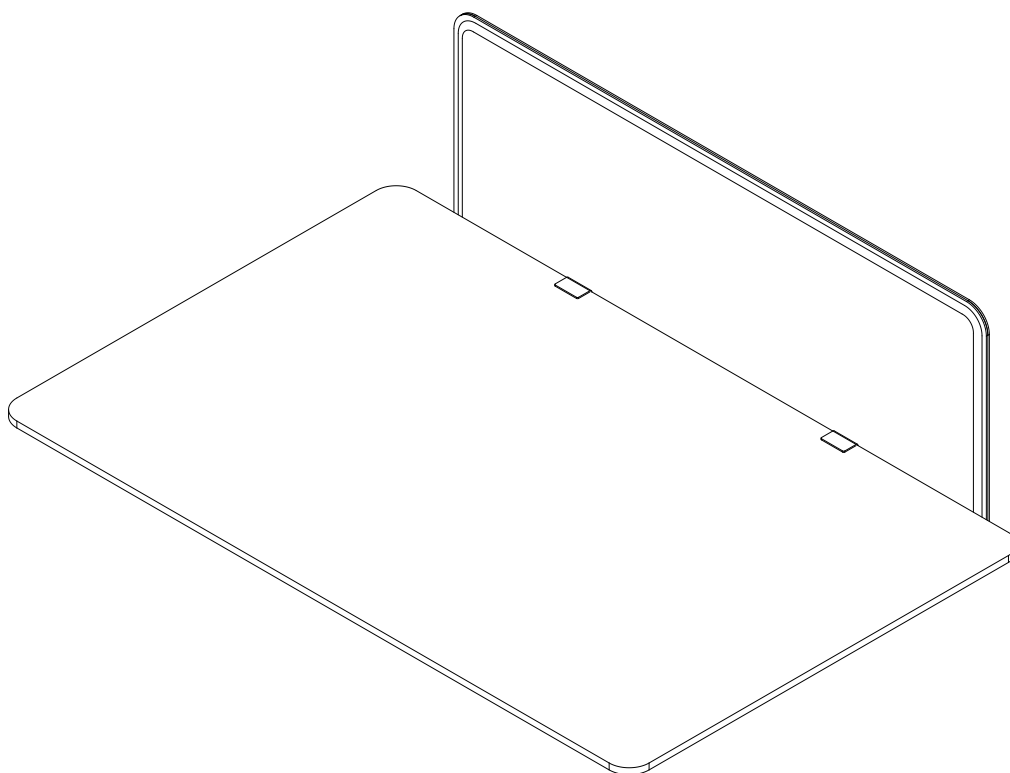

6 Perform steps 2 - 5 for both clamps.

7 Mount the panel onto the tabletop and fix it using the adjustable feet (you can use a wrench or a hex key).

8 You are all set!
