Tabletop

Lite Table Top
Ø 120 - 160

Table frame

Profile
400 mm

Profile
525 mm

1 Place table top upside down on a blanket

! Make sure to place frame
e.g. on protection blanket
to prevent damage.

2 Place profiles on table top

If the table top consists of two parts, see appendix

3 Insert sliding nuts for corner brackets

4 Fix the corner brackets to the frame

5 Mount the profiles with the screws

6 Insert sliding nuts for the legs

! Insert the sliding nuts on
the positions where you
place the legs

7 Mount legs on profiles

8 *Only for aluminium feet:* Mount foot brackets on legs

9 Screw the adjustable feet into the leg bracket

10 Turn the table with care

10 Congratulations, it's done!

We create interior products by today's standards.

De Vorm is established in a new era, we develop products by the standards of today. This means we produce efficiently, use the full lifecycle of products and eventually give them a new life.

Our emphasis lies on making a product that works, by setting a variety of conditions; it should be legible, accessible, but also environmental friendly and aesthetically perfectly in balance.

We like a product because of its functionality.

A good product makes life easier — by helping us function better throughout the day. We firmly believe that the beauty of a design lies in the sum of its functions. That is what makes it a complete product.

We continuously raise the bar.

From the very first sketches we already start searching, combining and developing new techniques to find new possibilities to innovate. Our design process is infused with technical development; techniques result in aesthetic features and the other way round.
