Lite Tabletop Ø 120 - 160

Leg options

Lite Table Legs Aluminium 74cm 95 cm 110cm 3x	Lite Table Legs Steel 74cm 95 cm 110cm 3x	Lite Table Legs Wood 74cm 3x
		

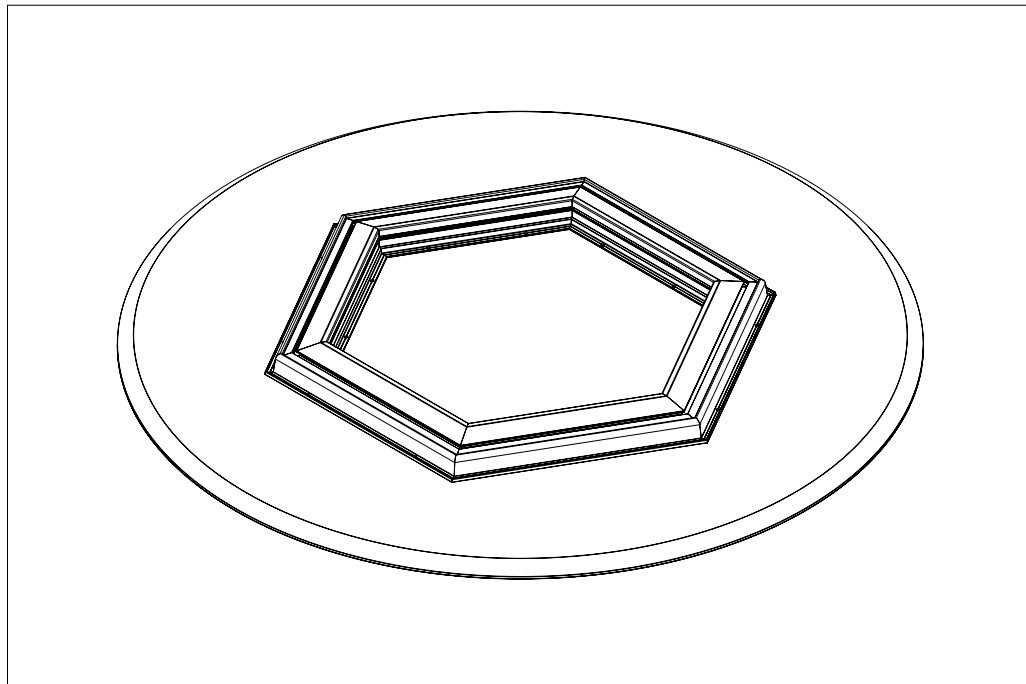

Preparation

- 1 Make sure the surface you are working on is flat and use a protective blanket on the floor to prevent damage

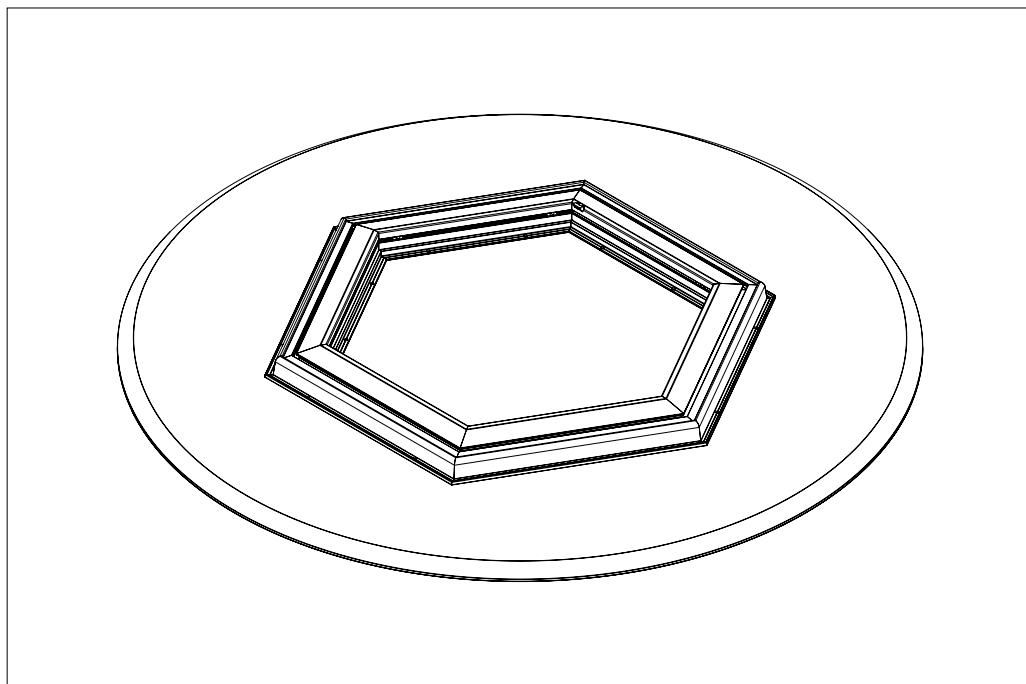

Assembly of Lite Round Table requires at least two people.

Assembling table frame

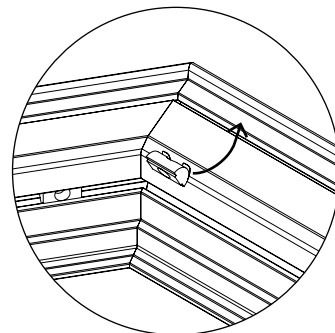

- 2 Place profiles on tabletop to form a hexagon

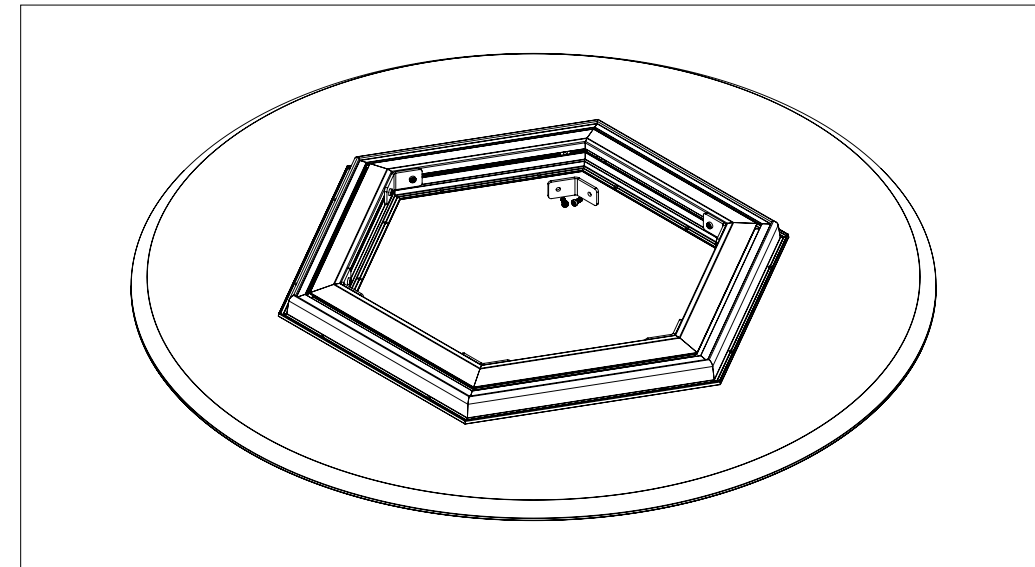

- 3 Insert sliding nuts

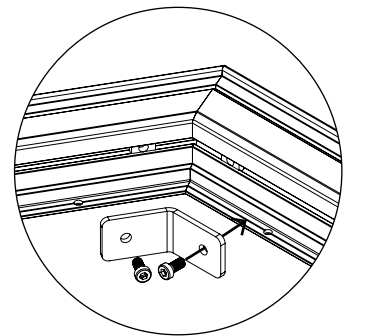

Insert 2x M8 sliding nuts per each profile and place them in the corners.

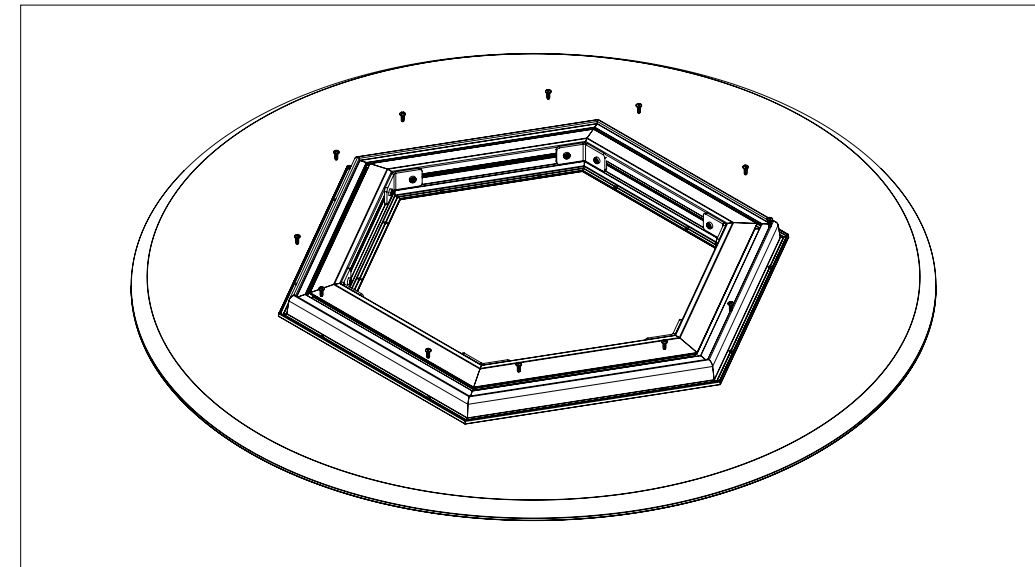

- 4 Connect profiles using corner brackets

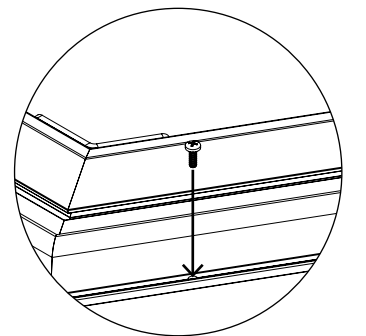

Use 2x M8x16 bolts per corner bracket.

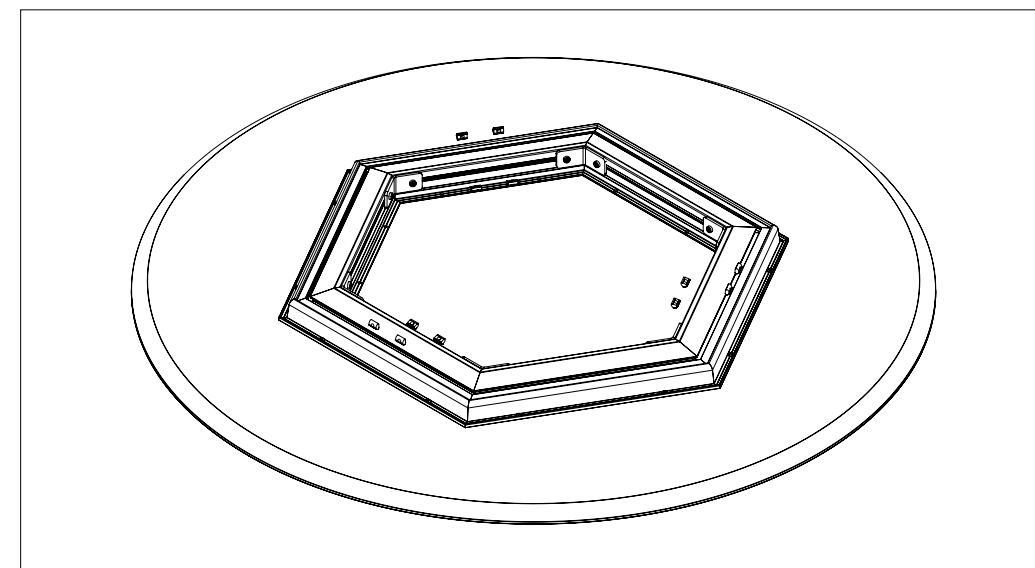

- 5 Fasten profiles upon the tabletop

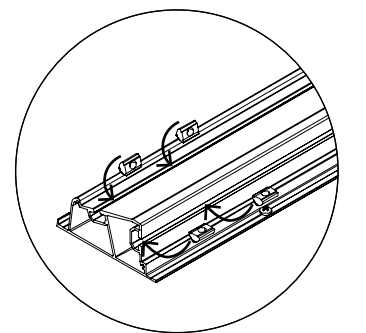

Use screws PZ 5x16 to fasten the profiles.

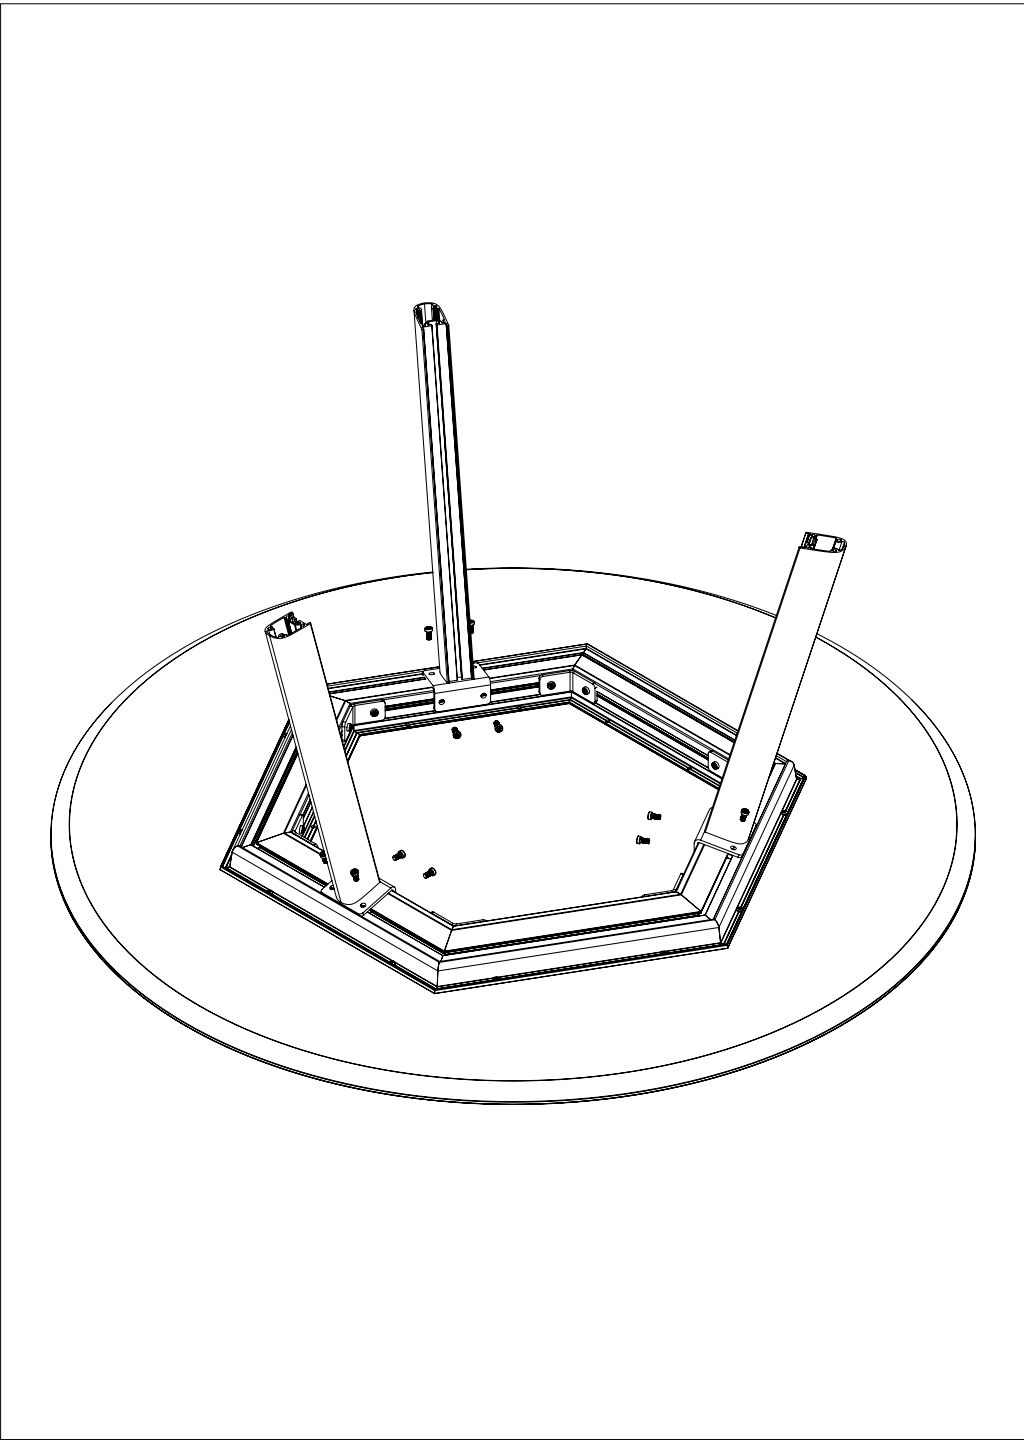

- 6 Insert sliding nuts for the legs

Insert 4x M8 sliding nuts in three opposing profiles.

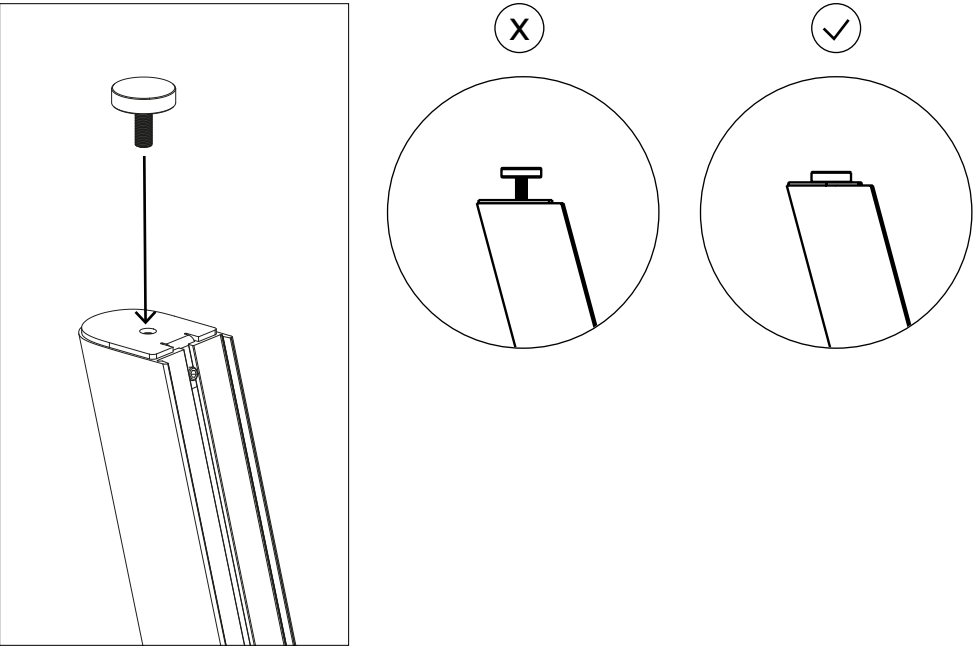

7 Connect legs to the frame

Connect the table legs to the profiles with 4x M8x16 bolts per leg using the allen key.

Make sure all screws are properly fastened (5 Nm).

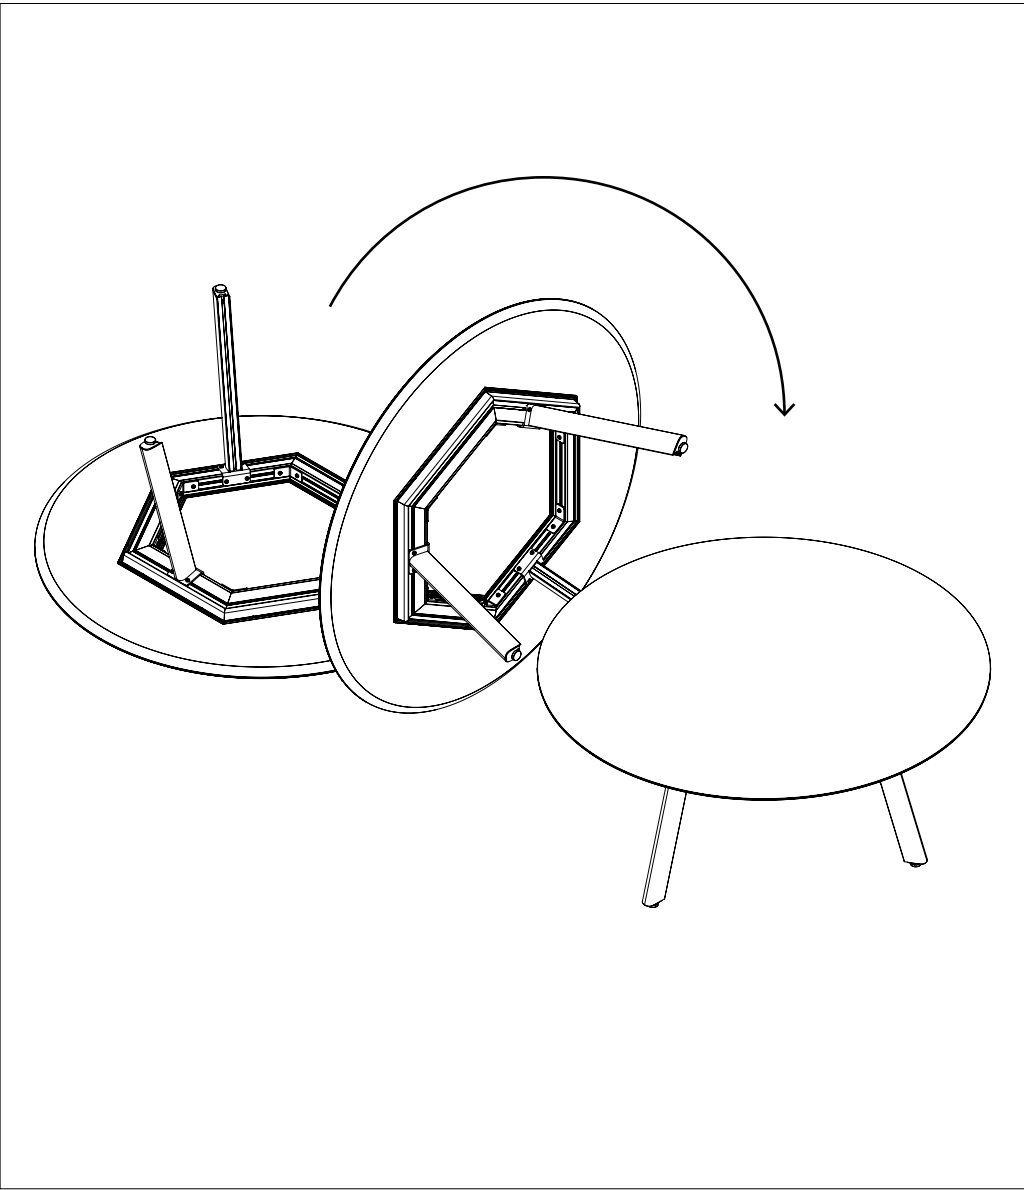

8 Screw the adjustable feet into the leg bracket

Please, take into account that adjustable feet are intended for levelling the tabletop and not for height adjustment.

Screw the feet in properly to make sure the table is stable.

9 Turn the table with care. You are all set!

Make sure to protect the edge of the tabletop while turning it to prevent damage.
