About

Mute Beam Indirect creates soft, atmospheric lighting that reflects beautifully off surrounding surfaces. This sleek LED fixture delivers a diffused glow to enhance your commercial spaces with clean, glare-free illumination. Built from recycled aluminium with DALI dimming capability and available in 12 RAL colours, it measures 239 cm to align perfectly with Mute PET Felt Acoustic Panels or work as a standalone lighting solution.

LED module	COB LED strips
Voltage	LED: 24V
	Driver: 220V-240V
Power	Max. 10 w/m
Colour temperature	3000K
CRI	>80
Operating temperature	-20° - +50°
LED driver	Included
IP rating	IP20
Dimmable	yes, DALI
Lumen output max	To be confirmed
Lumen output setted	To be confirmed

Parts required

LED profile incl cable 1x	Wall profile 1x	Driver 60W 1x
		

Tools required

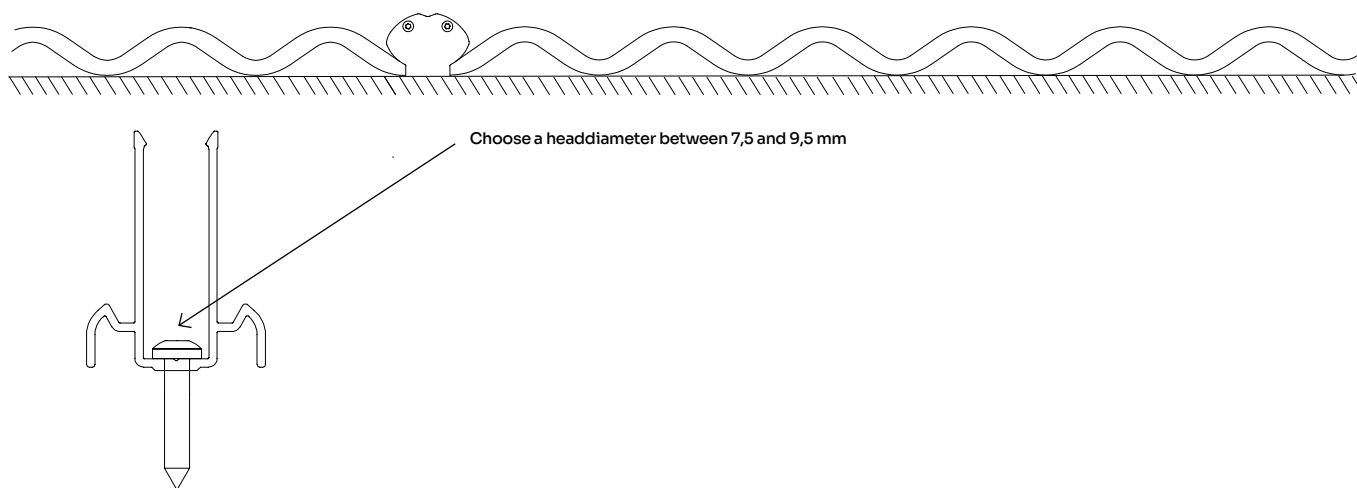

Drill	Flathead screwdriver	Level
		

Not included

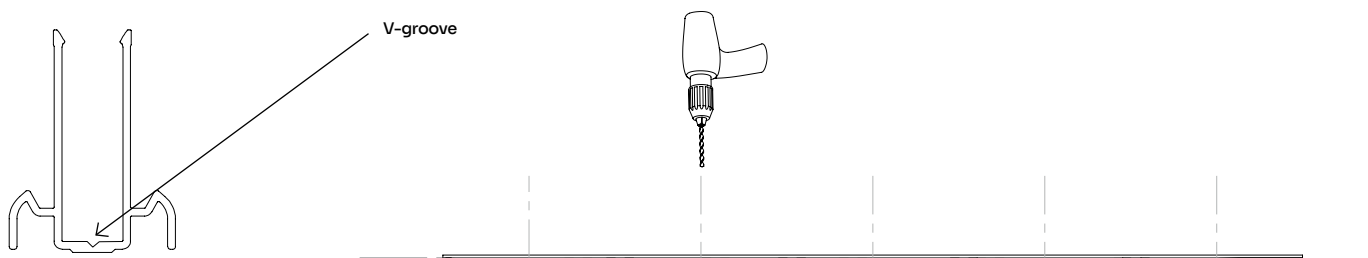

- Screws
- Wall plugs

Preparation

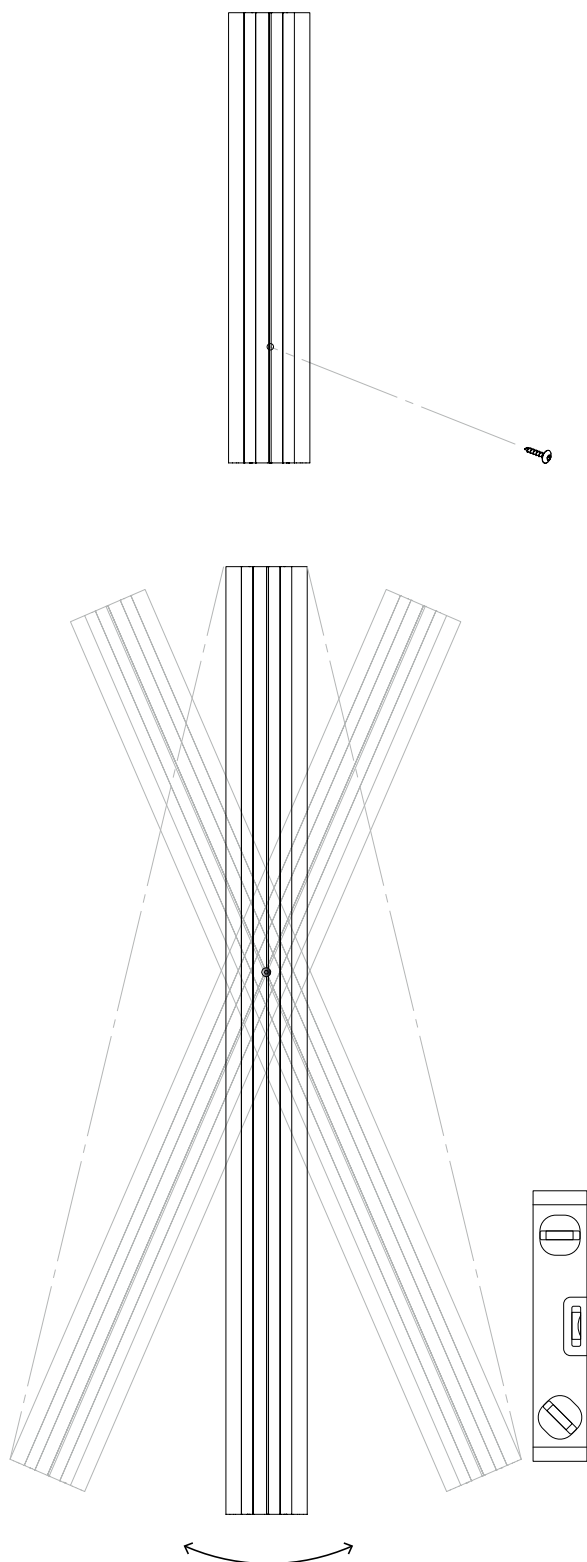

- 1 Check the wall and determine which fixings you need for your walltype.

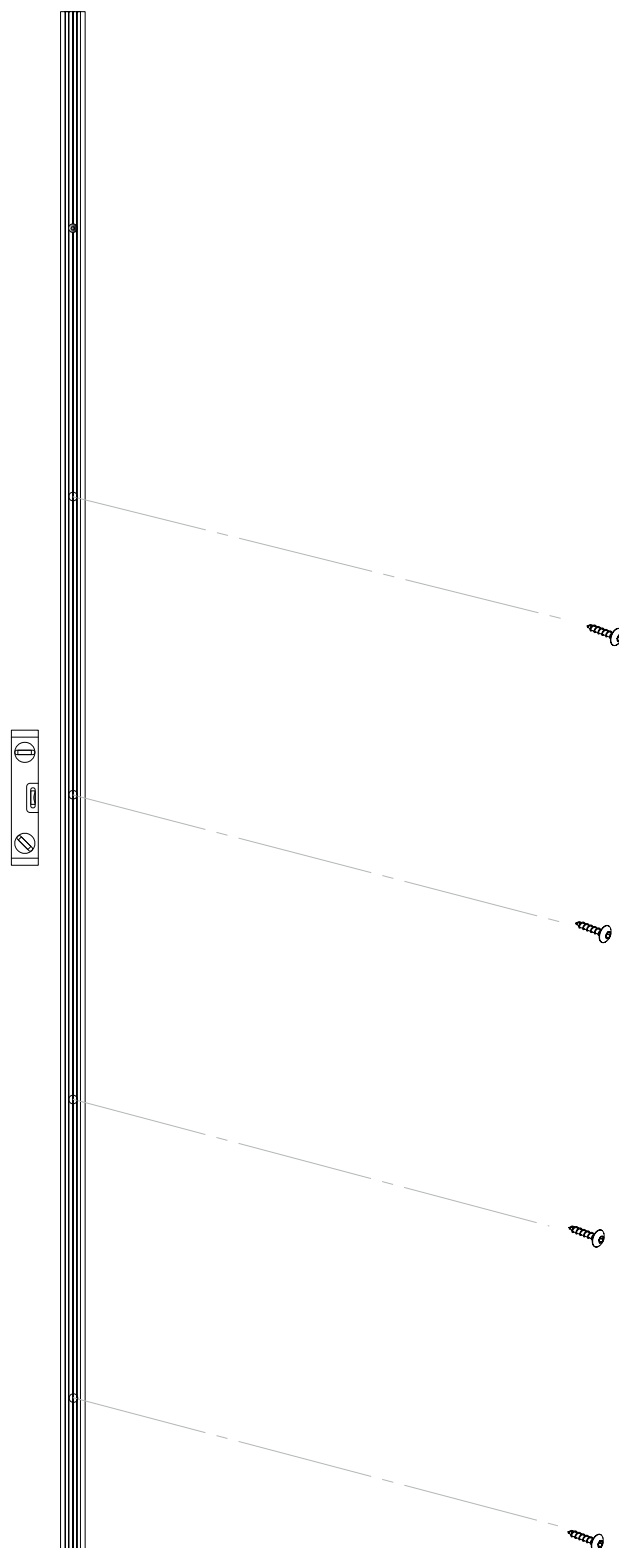

- 2 Drill several holes in the wall profile, using the V-groove in the middle as a guide to stay centred.

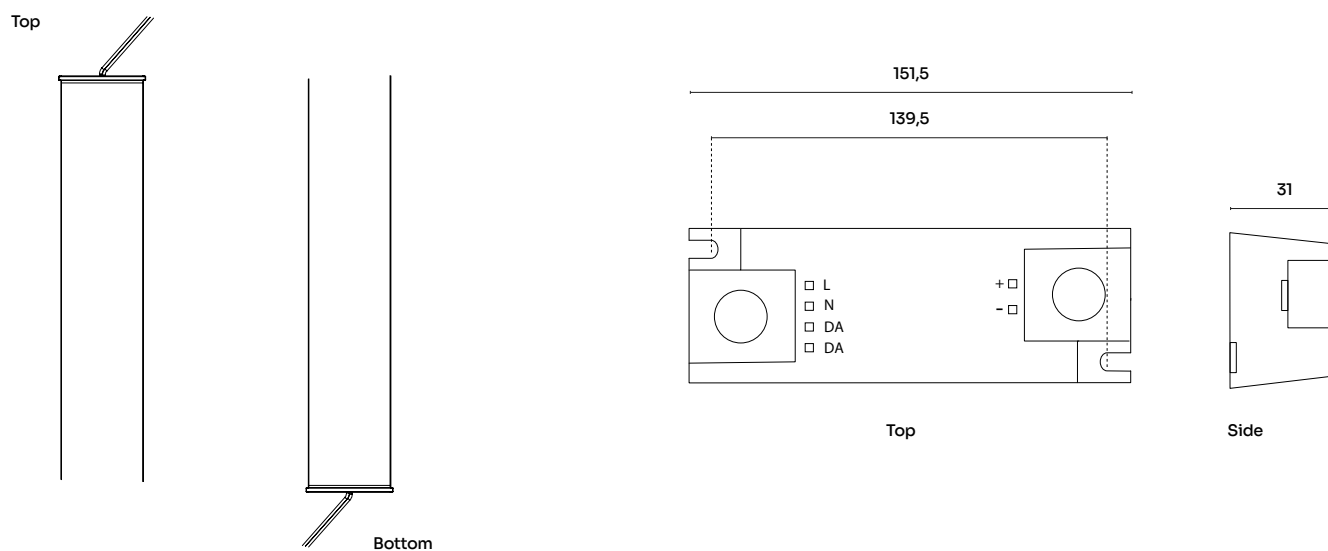

3 Secure the wall profile to the wall with the top screw. Use a spirit level to position the wall profile so it is perfectly level.

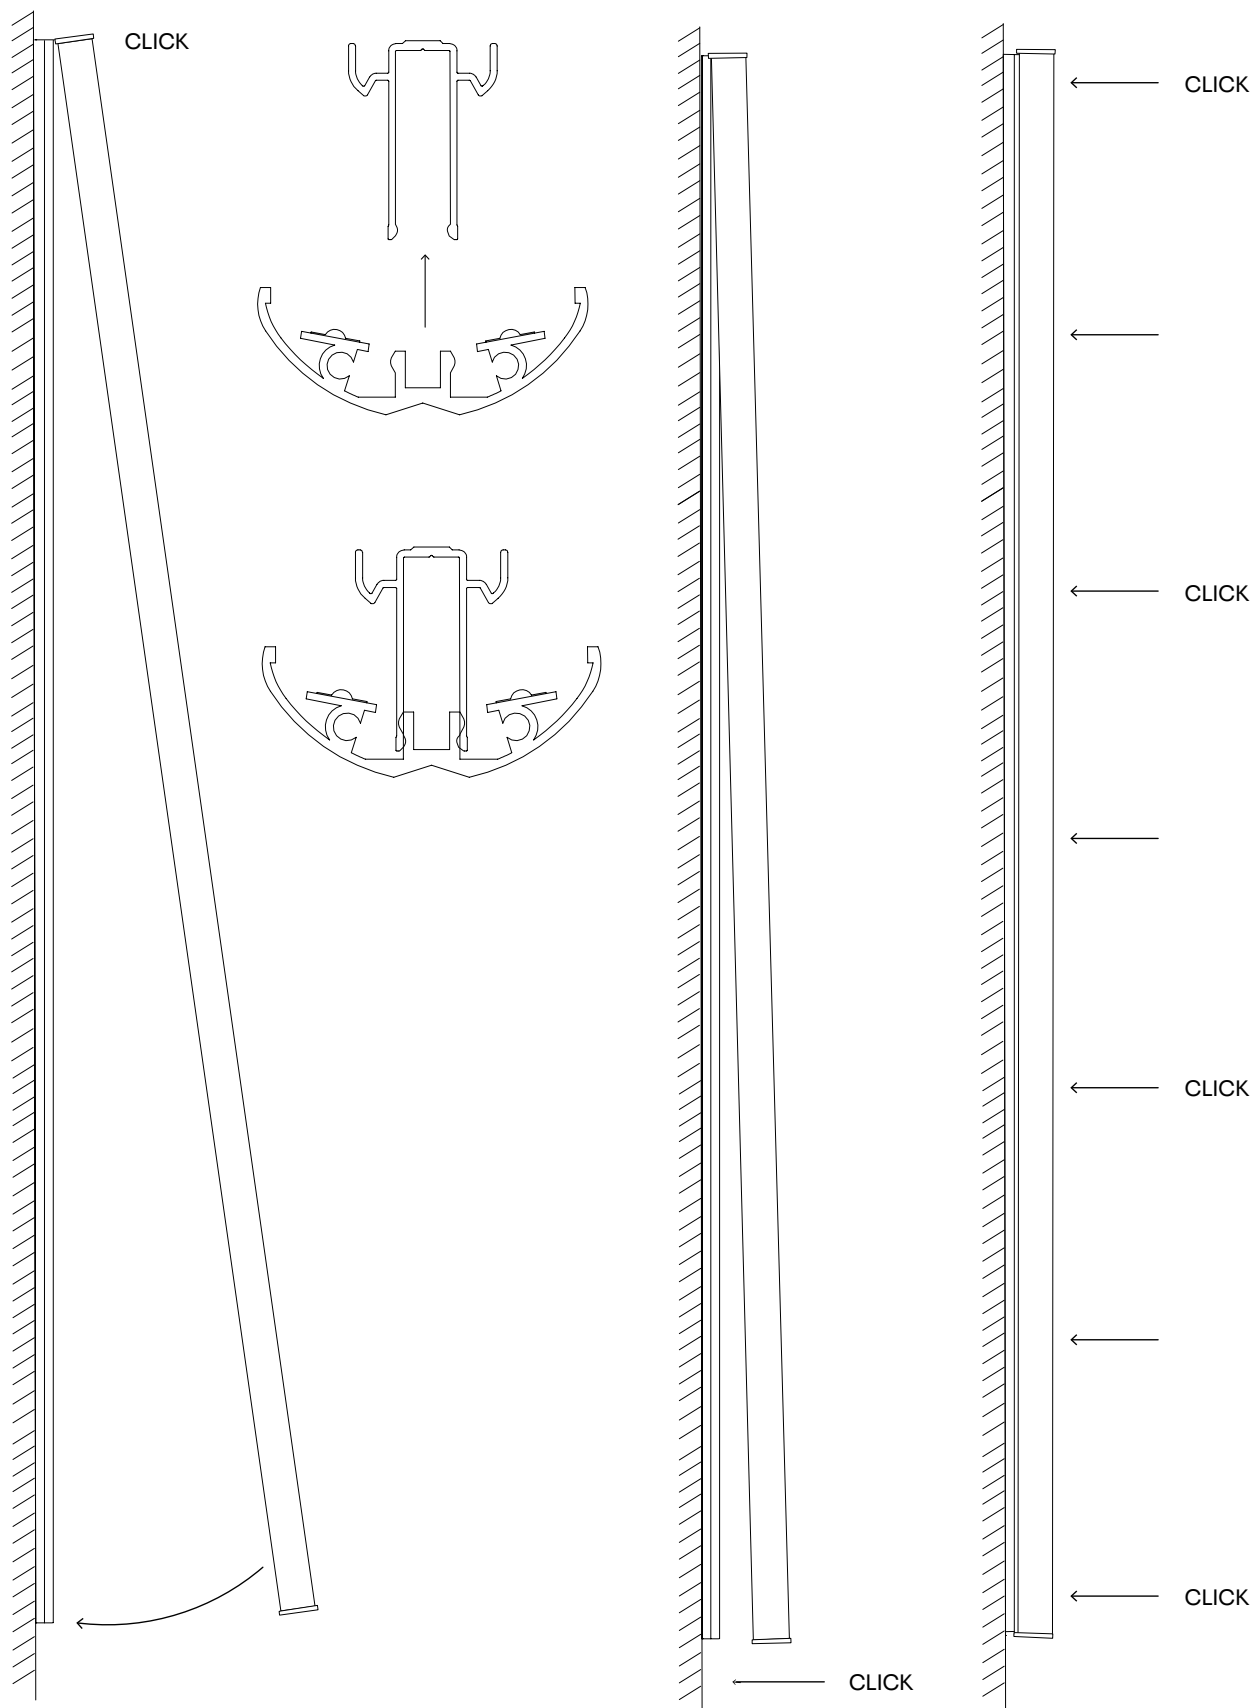

4 Once the profile is level, fasten the remaining screws.

5 Decide if you'd prefer your driver at the top or at the bottom of the Mute Beam.

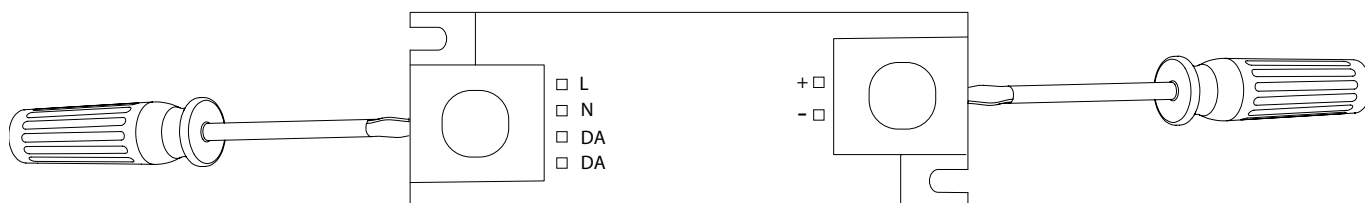

- 6** - Place the LED profile on one side inside the wall profile
- Begin installation from one end
- Press firmly until the LED profile clicks
- Press along the entire length until it securely clicks into place and is completely fixed in the wall profile.

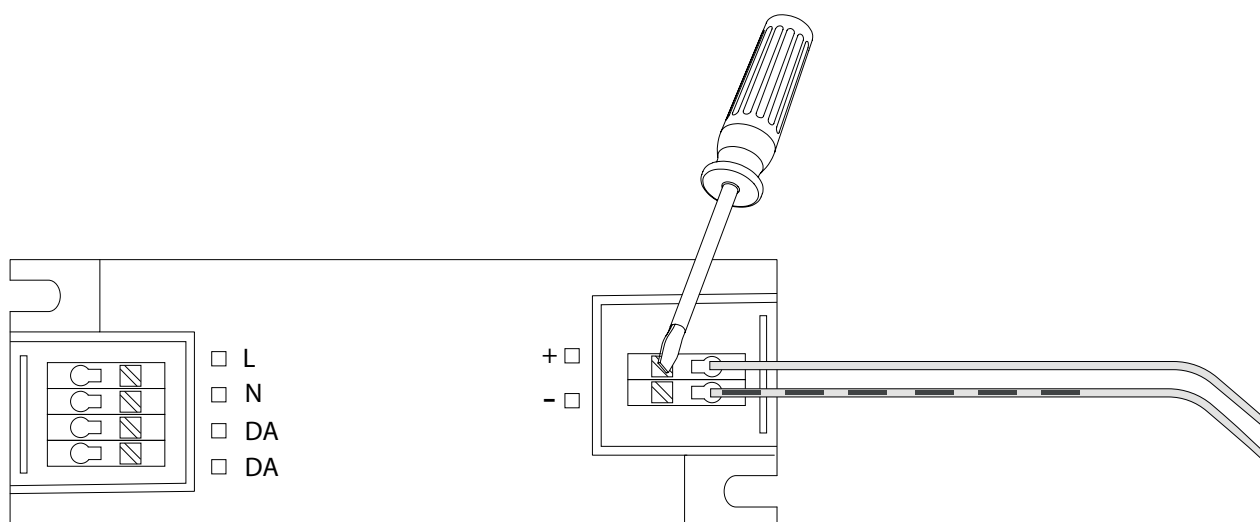

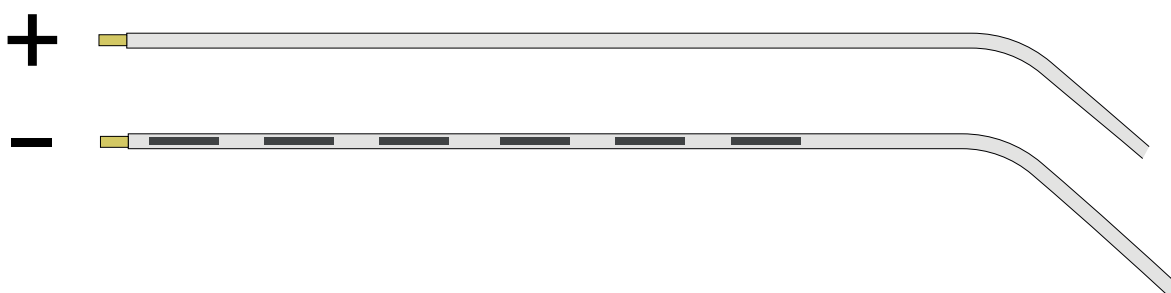

Connect the driver

- 8** - Make sure the power is switched off.
- Check the manual of the driver for specifics
- Use a flathead screwdriver to loosen the caps

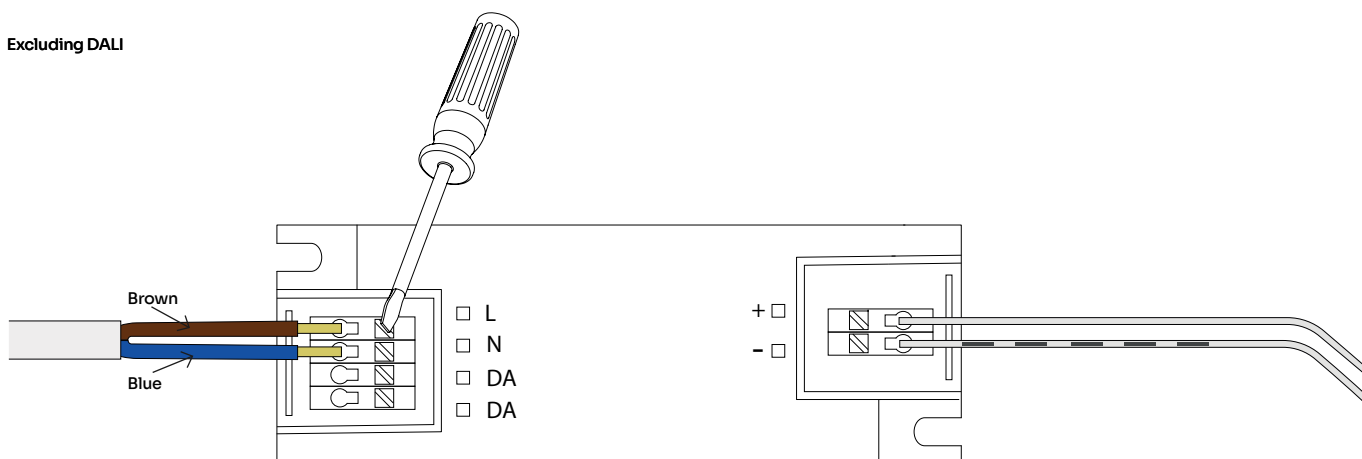

- 9** Connect the LED cables by pushing a small flathead screwdriver into the push-in terminals.

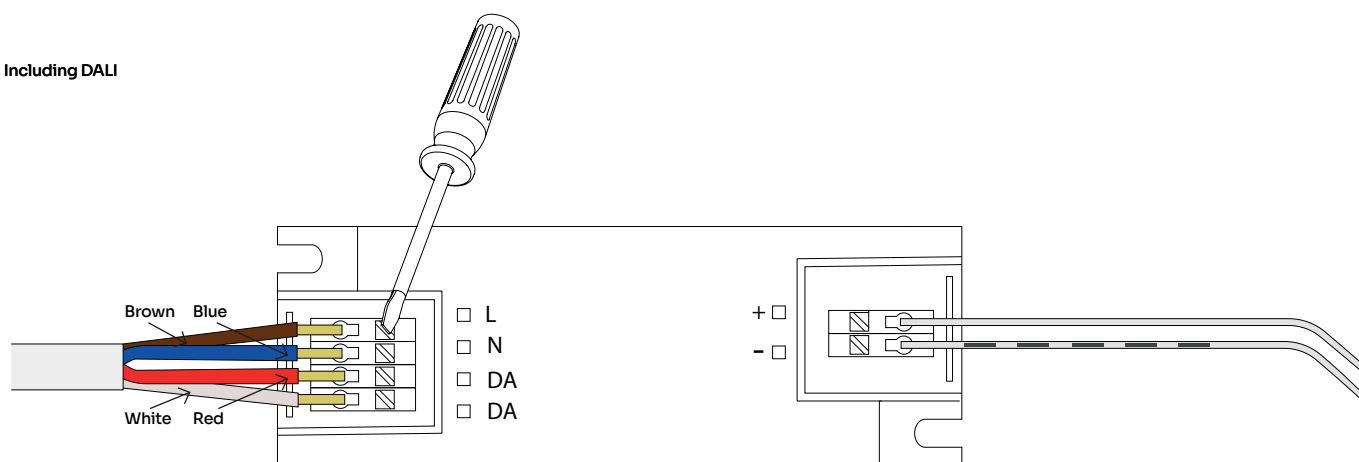

Connect the driver

10 Connect the powercables by pushing a small flathead screwdriver into the push-in terminals.

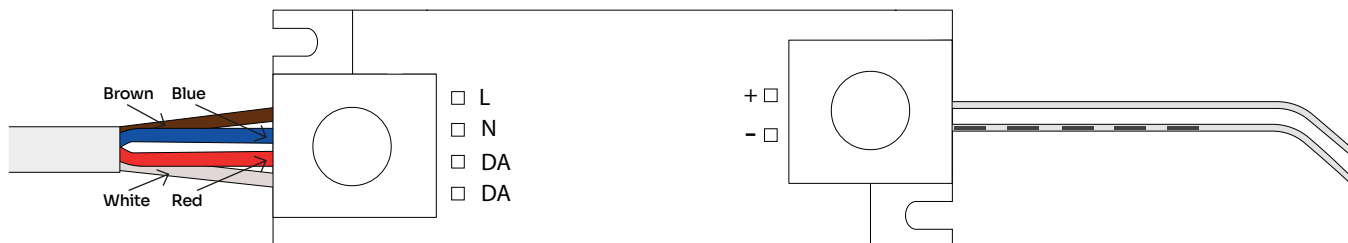

Excluding DALI

Including DALI

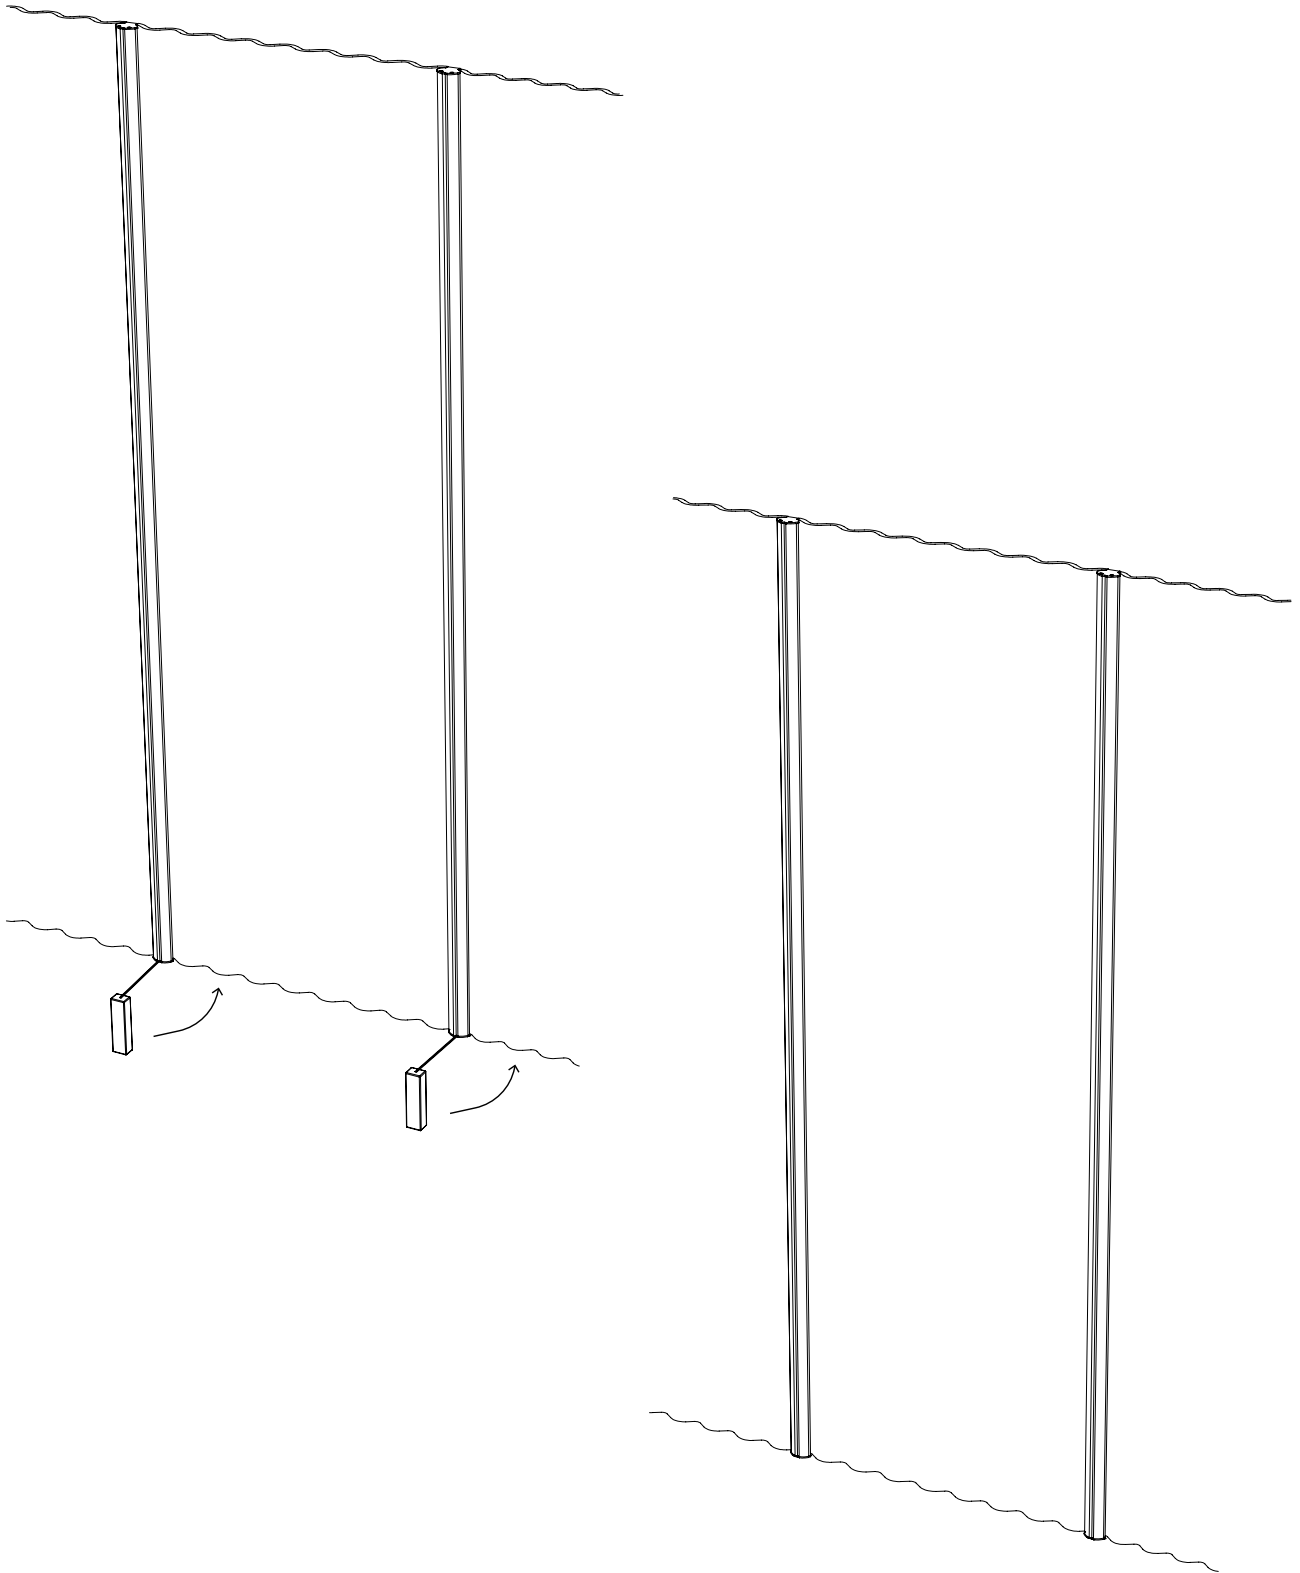

11 Put the caps back on the driver.

Connect the driver

12 Mount the driver to an invisible spot.
